We will continue to operate as efficiently as possible and only use them when it is necessary. To date we have not needed to work later than 6.15pm on one occasion.

As you are aware we have permission from the London Borough of Camden to temporarily extend our working hours for this activity. This permission does not allow any other general works related to the site to take place out of hours. The working days for these works will depend on weather conditions.

We will provide updates on all remaining concrete power floating on the CGY project website <https://camdengoodsyardsconsultation.com> and via the CGY project email mailing list, which you can sign up to on the website.

We anticipate that any disruption will be minimal, however we apologise in advance for any this may cause.

Kind regards.

The Camden Goods Yard Project Team
